

## Caring For Your Volumes

Thank you for your purchase of Rockstar Climbing Volumes!

Rockstar Volumes are extremely solid and well constructed, but unlike Polyurethane holds they are made of wood, which can dent, chip or crack on impact. Treat them well and they will last a long time. Some helpful guidelines:

1. Use the right size bolt- we recommend a  $\frac{3}{8}$ "-16 Hex Bolt for installation. Length will vary depending on volume, but mounting bolt should penetrate wall t-nut 1" minimum. They can be purchased at McMaster Carr, Fastenal or your local hardware store.
2. Do not over-tighten **volume** mounting bolts or **hold** mounting bolts!
3. To prevent spinning, always use a screw at the edge in the locations provided on the volume, or use a buddy hold (we recommend a buddy hold for smaller volumes)
4. Avoid screwing directly into the volume face ( if it's unavoidable, predrill).
5. Do not drop volumes on edge on hard surfaces as this can damage the corners. When removing volumes from the wall be sure to lower them carefully. Dropping onto other volumes or holds can damage them.
6. Clean volumes with a damp cloth or water-dampened nylon brush. **DO NOT USE** any metal-bristle brushes! Show-face paint is waterproof, but interior is not, so **do not dunk in water!!**
7. When cleaning, **do not dip in any cleaning solution!!** If the wood interior happens to get wet it must be dried quickly and thoroughly. Place in front of a fan if possible.
8. If the volume finish is damaged by denting, chipping or peeling we recommend filling with bondo, sanding close to surrounding area, and using a matching touch up paint. Paint can be acquired through Rockstar Volumes.

### Limited Warranty:

At Rockstar Volumes we stand behind ( and hang from!) our work.

We warranty our volumes to be free from defects in materials or workmanship under normal use.

Rockstar Volumes will repair or replace, free of charge, any product that proves defective due to improper materials or workmanship for a period of one year from date of shipping. After warranty period we will repair or replace damaged product at standard labor and material rates.

This warranty DOES NOT COVER blown-out, stripped or cross-threaded t-nuts, damage due to application of, or immersion into, water or solvents, breakage due to over-tightening of mounting bolts or screws, dropping onto hard surfaces or objects, or excessive use of screws in non-manufactured holes.

No other warranty is expressed or implied. Rockstar Volumes assumes no responsibility or liability for improper use or installation of its products. **Customer assumes any and all risk in use of climbing volumes and holds.**
